

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. Bibliography of Road Making and Maintenance

IN GREAT BRITAIN.

By

SIDNEY AND BEATRICE WEBB.

THE ROADS IMPROVEMENT ASSOCIATION,
Incorporated,
1, Albemarle Street, Piccadilly, London, W.

PRICE SIXPENCE.

1906.

THE Roads Improvement Association is an organisation established to secure for the public better, wider, and more numerous roads and footways. With this object in view it initiated a movement to secure those legislative and administrative alterations which economic changes, especially the development of new and improved methods of road locomotion, have rendered necessary. Further particulars and copies of its publications may be obtained from the Honorary Secretary—Mr. W. R. **JEFFREYS**, 1, Albemarle Street, Piccadilly, London.

BIBLIOGRAPHY.

THE Roads Improvement Association (Incorporated) are indebted to Mr. and Mrs. Sidney Webb for the following tentative Bibliography of Road Making and Maintenance in Great Britain. It contains a list of the authorities and references used in connection with the elaborate History of English Local Government which these authors are preparing. The reference numbers, where given, are to the British Museum collection.

The Roads Improvement Association will be glad to receive the reference to any publication not noted in the Bibliography, which should properly be included, and also to receive copies of any of the volumes mentioned for the purpose of adding to their Library.

1583 LAMBARD, WILLIAM.

The Duties of Constables. . . . Surveyours of the Highwaies, &c. Other editions 1584, 1587, 1594, 1599, 1602, 1606, 1610.

1610 PROCTER, THOMAS.

A Profitable Worke to this whole kingdome concerning the Mending of all Highways, as also for Waters and Iron Workes. 4to. c. 31. d. 6.

1625 NORDEN, JOHN.

An Intended Guyde, For English Travailers. Shewing in Generall how Far one Citie, and many Shire-Tounes in England, are Distant from Other.

[A faithful witness to the existence of a "dark age" period in the history of our roads, when milestones were unknown and unthought of, since at the foot of every page is printed the legend, "Beare with Defects." The distances were calculated, with curious results, from the rude maps then in use, and York was stated to be 150 miles only from London.]

- 1635 A Direction for the English Traveller by which he shall be enabled to Coast about all England and Wales [Contains a reference to the existence of sign post and is a slight improvement upon Norden's work having a circular map of England, but only 3½ in. diameter. Miniature outline drawings do service for maps of the various counties, yet Middlesex would be entirely covered by a small coin, and none are larger than a penny piece.]
- 1641 LAYER, JOHN.
The Office and Duty of Constables . . . with the Office of Surveyors of the Highways. 12mo.
- 1671 Broadsheet against New Buildings. A Proclamation Respecting Highways.
- 1675 MACE, THOMAS.
Profit, Conveniency, and Pleasure to the whole Nation: Being a short Rational Discourse . . . concerning the Highways of England. 4to. 1391 c. 20.
- 1675 OGILBY, JOHN.
Britannia, or, an Illustration of the Kingdom of England and Dominion of Wales, by a Geographical and Historical Description of the Principal Roads thereof. Also re-issued the same year, without the letterpress, under the title of "Itinerarium Angliæ: or, a Book of Roads."
The first Road Book from an accurate survey, the measurements being taken by means of a wheel, with a dial attached for recording the number of revolutions made. Ogilby's work was so excellent that it formed the basis of innumerable editions for quite a century afterwards.
- 1682 The Infallible Guide to Travellers, giving a most exact Account of the four Principal Roads of England. 577 a. 7.
- 1683 J. M.
The Traveller's Guide and the Country's Safety. Being a Declaration of the Laws of England against Highwaymen or Robbers upon the Road; what is necessary and requisite to be done by such persons as are robbed in order to the recovering their damages; against whom they are to bring their action; and the manner how it ought to be brought.

- 1692 LITTLETON, E.
Proposal for Maintaining and Repairing the Highways. 4to. 517 K. 16 (19).
